

Casualty facultative reinsurance

Markel Global Reinsurance

Casualty facultative reinsurance

Overview of Markel Global Reinsurance

Markel Global Reinsurance sources business through the broker market. We target clients with strong balance sheets, demonstrated market experience, a proven management strategy, and the ability to provide comprehensive exposure data. The Casualty Facultative unit of Markel has joined the Markel Global Reinsurance division.

Why Markel Global Reinsurance for casualty facultative?

Our service is considered among the best in the business by most facultative intermediaries. We operate off of an electronic platform and are virtually paperless. This allows us to operate at a very high level of efficiency. We respond to virtually every submission within 24 hours; however most of the time our turnaround is within a few hours.

Casualty facultative parameters

- Maximum capacity is \$2.5m
- Typical attachment points \$1m, \$2m, and \$5m
- Minimum premium of \$2.5k
- Average premium per policy of \$25k

Target casualty facultative lines of business

- Automobile liability
- General liability (including products)
- Umbrella liability
- Certain professional liability

Workers compensation is not written on a facultative basis.
