**Markel Global Reinsurance**

# Property reinsurance

## Overview

Markel Global Reinsurance sources business through the broker market. We target clients with strong balance sheets, demonstrated market expertise, a proven management strategy, and the ability to provide comprehensive exposure data. We reinsure single state or country, regional and national or global insurance companies.

Markel Global Reinsurance's underwriting approach includes:

- Evaluation of deals using underwriting judgment, market share, historic experience, and multiple vendor models where appropriate as well as a balance of other quantitative and qualitative underwriting techniques
- Understanding of exposure at a deep level

## Property treaty reinsurance (North American and International)

### Capacity
